

STALLIOS SAAS SOLUTIONS

Stallios is pleased to offer its SaaS solutions to Canada and its global partners. By doing so, Stallios plans to not only place Canada and its partners as world leaders in terms of modern technology, but also boost our local economy by selling our solutions worldwide. We have separated our solutions into three key sectors: social media, healthcare, and advanced AI. Those three products are annexed herein, and part of the Stallios platform at www.stallios.com

Social media via Stallios

- Improve social media with a much-needed social network for the public and private sectors.
- Fix all the known social media problems, such as hate-speech, misinformation, bots, etc.
- Improve the security and privacy of all users on the platform, including for teenagers.
- Consolidate all the best social media features known, and offer them all in one secure place.
- Run everything securely in a secure cloud with the highest level of security certifications.

Healthcare via Medicsis

- Improve healthcare assistance with a much-needed next-generation advanced system.
- Allow the population to enjoy healthcare assistance from home, office, and outdoors.
- Integrate a virtual doctor AI-assistant into system with vision and speech to assist patients.
- Offer clinicians the best EHRP and hospital management system available on the planet.
- Consolidate all the best healthcare features known, and offer them all in the same system.
- Run everything securely in your own on-premise dedicated cloud, where nothing is shared.

Advanced AI via Mayca

- Improve modern AI with a much-needed advanced system capable of doing human tasks.
- Integrate vision and speech into the system, with deep reasoning for seamless interactions.
- Use the system to assist ill patients and elderly people, and to do many other human tasks.
- Consolidate all the best AI features and technology known, into one super-AI system.
- Run everything securely in your own on-premise dedicated cloud where nothing is shared.

About Stallios
