### New message from ALVIN ROBERTS

#### Software Engineer · Remote

Dear Marc,

Thank you so much for considering my application. From everything I've seen and read, this opportunity truly excites me. It feels like a place where I could do meaningful work and grow alongside a team that cares. Over the years, I've come to value reliability, thoughtfulness, and the ability to adapt when things change. Those aren't just qualities I look for in others, they're the ones I bring with me every day. I do my best work when I feel connected to the mission and trusted to contribute fully, and this role feels like it offers just that. I know how important it is to bring not just skills, but also care, consistency, and perspective to the table. That's the kind of energy I'd bring to your team, and I would be honored to be part of what you're building.

Thank you again for your time and consideration. I'd be truly grateful for the chance to talk more.

Warm regards,  
Alvin D. Roberts
